PROFESSIONAL EXPERIENCE

05/2026 – 09/2026	Web Developer and System Administration at CoRelation GmbH. Concept and development of websites and web applications, from requirements analysis through design, frontend and backend to testing, go-live and operation, including server infrastructure. Additionally IT support and system administration.
05/2026 – 09/2026	Part-time work in data annotation. Preparing and evaluating the quality of training data to improve AI models.
01/2026 – 05/2026	Recruit training in the Swiss Armed Forces as a radio reconnaissance specialist
11/2025 – 12/2025	Project-based work at Digio AG as a Frontend Developer
08/2025 – 11/2025	Frontend design and implementation of the website, as well as various smaller project tasks for CoRelation GmbH
08/2024 – 07/2025	Intern at Digio AG as an Application Developer

EDUCATION

08/2021 – 07/2024	Informatikmittelschule (IT-focused upper secondary school), Kantonsschule Hottingen
08/2020 – 07/2021	3rd year of lower secondary school, GSEH, Erlenbach
08/2018 – 07/2020	1st – 2nd year of lower secondary school, Lernstudio, Zürich

HOBBIES

IT & Technology I continuously engage with technologies such as artificial intelligence, modern frameworks and new tools. I'm interested both in the technical implementation and in the concept, design and development of digital solutions.

Finance & Investing I invest in stocks, ETFs and other asset classes and regularly follow financial markets, long-term wealth building and different investment strategies.

Gaming I enjoy playing competitive video games and was part of a Brawl Stars esports team for two years. I like the teamwork involved and improving together.

Gym I played badminton for a long time and now train regularly at the gym.

Herrliberg, October 2026
